North Country Rehabilitators' Conference May 8-9, 2010

Bring the whole family to a Mother's Day weekend in Northern California with CCWR at the Turtle Bay Exploration Park, just 150 miles north of Sacramento.

Choose from two days of lectures and labs while you enjoy some networking with your fellow Northern California rehabilitators. Nicole Carion of the California Department of Fish and Game will be on hand to answer questions, and veterinarian-assisted hands-on labs will help you get ready for another busy season.

This symposium will fulfill eight hours of continuing education training under the California Department of Fish & Game Memorandum of Understanding.

Registration includes free admission to the Museum, so plan to include some down-time to enjoy the museum and park. The spectacular Sundial Bridge, designed by world renowned Spanish architect and engineer Santiago Calatrava leads you to the newly-created botanical gardens, 20 acres of mediterranean-climate display gardens, a children's garden, a medicinal garden, and two beautiful and unique water features.

Several pet and family-friendly hotels in the area are reasonably priced. For hotel information, please visit the CCWR website: www.ccwrf.org

Turtle Bay Exploration Park

Turtle Bay Museum is the heart of the Turtle Bay experience. It contains permanent, interactive exhibits and two large special exhibition galleries. The experiences — underwater fish viewing, walking through historic re-creations, experimenting with scientific equipment, viewing art — are also springboards for the authentic outdoor experiences in the rest of the park.

The Botanical Gardens is the newest addition to Turtle Bay Exploration Park. The Gardens comprise 20 acres of mediterranean-climate display gardens, a children's garden, a medicinal garden, and two beautiful and unique water features.

The Sundial Bridge at Turtle Bay crosses the Sacramento River in the heart of Redding, California. Opened July 4, 2004, the bridge links the north and south campuses of Turtle Bay Exploration Park and serves as a new downtown entrance for Redding's extensive Sacramento River Trail system.

The Café at Turtle Bay offers delicious meals in one of Redding's most beautiful settings. Warm up with a latté in the morning and plan to have lunch here between talks. The Café at Turtle Bay specializes in gourmet sandwiches, Italian-style pizzas and creative salads.
